Oakland Tribune.

OAKLAND, CALIFORNIA, TUESDAY EVENING, MARCH 19, 1901

NO. 64

GEO. BURTCHAELL IS FOR HARMONY.

Will Keep His Pledges and Work for Interests of the City.

GEORGE T. BURTCHAELL,

Who Will Be the President of the New City Council.

George T. Burtchaell, who is to be president of the new Council, is now the most prominent figure in municipal politics. All eyes are turned toward this quiet business man who has suddenly put an end to a complicated and embarrassing situation in the city government, to the general satisfaction of the public and the promotion of harmony in the conduct of public business.

Since the announcement of his intention to cast his lot with the Councilmen elected as Republicans, and thus bring all the departments of the municipal administration into union, considerable pressure has been brought to bear to induce him to reconsider his determination.

Under his quiet exterior Mr. Burtchaell is a man of iron resolution. He says little but thinks much, and when he has once made up his mind cannot be moved from his position. His strong will and even temper admirably fit him to preside over the deliberations of the Council. His rulings can be relied upon to be fair and firm and dictated by a high sense of duty. As president of the Council Mr. Burtchaell will be an effective and conscientious counsellor of Mayor Barstow. He is the same type of man as the new Mayor, which is an assurance that sound business ideas will dominate the policy of both the executive and the Council.

Mr. Burtchaell is an enthusiastic advocate of public improvements and abhors strife and small politics.

He desires to see the streets cleaned and repaired and all the departments placed in effective running order. His common sense teaches him that nothing of value can be accomplished with the legislative branch of the city-government at loggerheads with the executive departments, and when he saw an opportunity to put an end to this undesirable state of affairs in an entirely honorable manner he did so.

While there is some criticism of his decision—mainly from the office-seeking element of the Municipal League—his course is heartily approved by the mass of citizens. In standing with Mayor Barstow Mr. Burtchaell can rely upon the approval of the great body of his fellow citizens.

Mr. Burtchaell is strictly an Oakland man. His business interests are all in this city, where he has lived an upright life for more than quarter of a century. For nearly twenty years he has been in business on his own account, being senior member of the plumbing and gasfitting firm of Burtchaell & Crowley. Prior to forming the partnership with Mr. Crowley he was for several years connected with Daldel & Miller. Mr. Burtchaell has reared and educated his family in Oakland and wishes to see the city grow and prosper. He takes a just pride in its future, and as a member of the Council proposes to exert himself to promote its welfare. He has always been a Republican, and sees nothing

the Mayor resides and does business exclusively in Oakland, and so does the new City Attorney. The same is true of myself. I think it well that the Mayor, the City Attorney and the President of the Council should be in the city at all times, and within easy reach of citizens who wish to consult them on any public matter.

"I have no apology to make for my actions or my views. I am convinced that I have pursued the proper course for the best interests of the city and am willing to submit them to the judgment of the people, after a fair trial. I shall endeavor to serve the whole city without prejudice or favoritism, and I earnestly hope for the co-operation of every good citizen interested in the welfare of Oakland."

DIRECTORS MUST PAY.

Associated Press Dispatches by The Tribune's Special Leased Wire. ST. LOUIS, Mo., March 19.—Former Judge James A. Seddon, who was appointed referee to hear testimony in the \$20,000 damage suit brought by Ex-Governor William J. Stone, received in the Mullany Savings Bank, against the directors of the bank, for alleged carelessness in the management of the bank, has filed his report in Judge Douglass' court, recommending that judgment for large amounts be rendered against the bank officials. The defendants in the suit are John R. Bottman, president of the defunct bank, and Frederick S. Boltz, Conrad Kellersmann, J. G. Brinkmeyer, J. H. Johanning, Charles Schumacher, Conrad Gersting, Joseph Marx and Henry K. Largus, directors.

General negligence is alleged in that they allowed heavy over-drafts to be made by friends.

STRONG HINT TO RUSSIA.

Germany Has Something to Say About Manchuria.

Associated Press Dispatches by The Tribune's Special Leased Wire. BERLIN, Mar. 18.—In the course of the debate in the Reichstag today on the third reading of the budget, replying to Prince Bismarck's criticism of Count von Bülow's recent speech that the Chancellor insisted too much on Germany's interests in Manchuria and that Germany's interests would not have suffered even if Kiao Chou had not been leased, Count von Bülow said Germany had the greatest interest in preventing friction between the powers negotiating in China. Moreover, in Eastern Asia Germany had many interests to safeguard. In Shantung province she had millions invested. Above all, Germany had to insist upon adequate compensation being given for the murder of Baron von Ketteler. That was a question in which the honor of Germany was engaged and in which she had a vital interest. In the further course of his speech the Chancellor said:

"I have left no room for the slightest doubt that no German political interests exist in Manchuria, but at the same time I have stated it most naturally to our desire that China will not too seriously diminish her capacity for satisfying the just claims of the powers for compensation. This is not misunderstood in any way.

"Two hours ago I received a dispatch from St. Petersburg according to which Count Lansdorff, the Russian Minister of Foreign Affairs, has expressed his satisfaction to the German Ambassador with my statements in regard to the Chinese situation."

The Chancellor gave figures illustrative of the importance of the commerce between Germany and East Asia amounting to \$60,000,000 marks. A hundred million marks are invested in Shantung province.

"Germany therefore has the greatest interest in preventing the Chinese trade from becoming the booty of a single power or several powers without."

Count von Bülow also declared that the center of gravity of Germany's policy remained in Europe, and that he had no intention of allowing it to be displaced while protecting her interests in Asia.

San Diego's Library.

Associated Press Dispatches by The Tribune's Special Leased Wire.

SAN DIEGO, Cal., March 19.—Several thousand persons witnessed the exercises held this morning connected with laying the corner stone of the public library building for this city, and for which Andrew Carnegie donated \$50,000. The exercises were under the direction of Grand Master J. A. Poschay of San Francisco, of the Grand Lodge of Masons and members of the local lodges participated. Phillip Morse was president of the day and Judge M. A. Luce grand orator.

REBEL CHIEF'S CAPTURE ENDS WAR IN PANAY.

WASHINGTON, March 19.—General MacArthur at Manila to-day informed the War Department of the Insurgent General Diocino. His cable is as follows:

"General Roberto Hughes Diocino, most troublesome insurgent

TROOPS READY TO FIRE

British and Russian Soldiers Face to Face.

Unarmed Americans are Abused By the French.

Associated Press Dispatches by The Tribune's Special Leased Wire.

TIEN TSIN, Mar. 19.—(Afternoon)—The excitement and anxiety here as to the possible developments of the Anglo-Russian siding dispute do not abate. A company of British troops and a company of Russian soldiers remain encamped on either side of the trench, looking at each other. The Russians have orders to fire on anyone commencing work.

General Vogack says the trouble was caused by the unwarrantable interference of the British in the affairs of the Manchurian concession. He adds that the siding will not be continued unless he receives orders from his superiors.

Field Marshal Count von Waldersee is expected here today. Both sides will appeal to him, but they both consider the matter to be beyond his authority and will await orders from Europe.

Speaking of the attack made by a number of excited French soldiers on some members of the British 8th Regiment Sunday, in the French concession, General Lorne-Campbell says it was merely a childish outbreak against the orders of their own general, who had forbidden the French soldiers to enter the British concession. This order followed a request made by General Lorne-Campbell after almost every resident had complained of the behavior of the French in insulting women, refusing to pay for purchases, acting riotously and abusing English soldiers.

General Veyren, the French commander, recognized that this must stop and ordered the French soldiers to keep in their own concession. General Lorne-Campbell was perfectly satisfied that General Veyren was in harmony with himself and anxious to maintain order.

Major Footh (Ninth U. S. Infantry) says the French soldiers were frequently abusive to the American troops, who were unarmed while out on pass, while the French were armed with swords or bayonets. On one occasion an American disarmed a Frenchman and turned over his weapon to the Sergeant of the guard, explaining satisfactorily his reasons for the action taken.

NO WORD FROM TIEN TSIN.

PARIS, Mar. 19.—(1:30 P. M.)—At a Cabinet Council today the Minister of Foreign Affairs, M. Delcasse, related the progress of the peace negotiations at Peking. He said the latest dispatches made no mention of the incidents occurring at Tien Tsin.

SETTLEMENT REPORTED.

LONDON, Mar. 19.—Some of the afternoon papers say the Tien Tsin difficulties have been arranged.

The misunderstanding was due to the Chinese authorities granting the concession to two nations.

The arrangement enables Great Britain to proceed with the construction of the railroad siding, but if Russia's concession proves to be earlier than that of Great Britain, the latter is to acknowledge the claims of Russia.

The Foreign Office, however, has no information tending to confirm the announcements of an arrangement having been made, and the officials are rather inclined to doubt that such an arrangement has been arrived at. They say the original concession was given up by Russia.

The afternoon newspapers welcome the latest news concerning the awkward situation of affairs at Tien Tsin, as indicating the probability of the fates of both Russia and Great Britain being saved by the intervention of a non-interested power.

Prof. Douglas of the British Museum expresses the opinion that there is only one way to stop Russian aggression in China, and that is for the "three most interested States, America, England and Japan, to combine to stem resistance."

RUSSIA WILL NOT YIELD.

PARIS, Mar. 19.—Russia will not recede from the position she has taken in the matter of the railroad siding at Tien Tsin, of that you can be assured."

This statement was made to a representative of the Associated Press by a high official of the Foreign Office.

Continuing, this official said: "Russia will not advance and will act slowly, but having taken up the position she now occupies, she will be invincible thereafter only by force. England has been unsuccessful in her efforts to secure the aid of other powers to attack Russia's position regarding Manchuria, and is not likely to begin hostilities unsupported in the present instance. It is hardly possible that England will go to war over a railroad siding with the Transvaal question still pending. I expect to see England yield."

"As to the statement that French soldiers attacked an English officer, we do

(Continued on Page 2.)

RUSSIA DEFIES POWERS

Will Brook No Inquiry as to Treaty With China.

She Will Negotiate With Whom She Pleases.

Associated Press Dispatches by The Tribune's Special Leased Wire.

ST. PETERSBURG, March 19.—Answering a question of the correspondent of the Associated Press, a competent official today said:

"It is not true that Russia has yielded to the representations of any of the powers and modified her demands respecting Manchuria, because no representations have been made. Every

attempt to address the Russian government on the subject of our poor parleys with China has

been categorically declined.

"Russia is in great power and has the right to hold negotiations with any other government, and no other power has the right to interfere. Tentatives made in a friendly spirit have received a friendly answer. But plainly stated, Russia cannot receive inquiries regarding the above."

BLIZZARD RACING.

Associated Press Dispatches by The Tribune's Special Leased Wire.

OMAHA, Neb., March 19.—A blizzard which general over Northern Kansas, Nebraska, North Dakota, Iowa and parts of Minnesota, began early today. A heavy snow accompanied by a strong wind fell continually during the day, having a bad effect on telegraph wires.

The storm is considered of much value to agricultural interests, furnishing moisture for which the ground has been in urgent need. Owing to the high temperature the snow melted considerably, thus preventing drifting.

GOOD DEMAND FOR WOOL.

Associated Press Dispatches by The Tribune's Special Leased Wire.

BOSTON, March 19.—There has been a good demand for wool this week. The tone is steadier, and the decline noticed in the past few weeks appears to have been checked. The sales of territorial wool still holds well with prices practically unchanged. Good lines of fine medium and fine are selling on the record basis of 40 to 42, with strictly staple lots at 41 to 43. New Australian wools coming in are held steady with the prices on the cost of imports.

CONVICT MINERS MUTINY

Refuse to Come Up and Holding Guards as Hostages.

Declare They Will Kill Them Unless Better Food Is Served.

Associated Press Dispatches by The Tribune's Special Leased Wire.

LEAVENWORTH, Kan., March 19.—In the Kansas State Penitentiary coal mine, just informed the House of Representatives that General Botha has rejected the peace terms offered him.

General Botha, Mr. Chamberlain said, had conveyed the information in a letter to General Kitchener, in which he announced that he was not disposed to report the terms of peace General Kitchener was instructed to offer him, to the earnest consideration of the Government.

General Botha added that his Government and its chief officers entirely agreed with his view.

Mr. Chamberlain added: "I propose to lay the papers connected with the negotiations on the table tonight."

BOER GRAIN DESTROYED.

Associated Press Dispatches by The Tribune's Special Leased Wire.

MAPEKING (Barotoland), Monday, March 18.—General Bruce Hamilton's force, who is sweeping over the southeastern portion of Orange River Colony, has reached Wepener, where the troops found heavy stocks of grain and cattle. They carried away as much as possible but destroyed 2,000 bags of grain. The houses at Wepener were found to be intact.

Miner Killed By a Blast.

LOS ANGELES, Cal., March 19.—W. B. Pentland, a miner and formerly a school teacher, was accidentally killed last Saturday by the premature explosion of a blast in a mine in the San Gabriel canyon above Azusa. He went into the mine to set off four blasts, and in one of them the fuse was left too short, and it exploded before Pentland could get out of the way. He left a wife and family in this city.

Most of the prisoners are desperate men and serious trouble may result before they are compelled to desist.

There is wild excitement in Lansing among the families of the guards, as it is feared some of the guards will be killed. All the penitentiary shops are closed and the convicts are held closely to their cells. This is in order to have the guards in readiness for emergency to handle the convicts should they attempt to rush from the mine. The mouth of the shaft of the mine is inside the walls of the prison. It goes down a depth of about 700 feet. The convicts are allowed to talk while at work. The guards never go into the mines without firearms, and also carry clubs.

Mortgage Foreclosed.

ATHLETE MORRIS PROVES AN ALIBI.

Joseph Morris was tried and acquitted in the Police Court today on a charge of disturbing the peace of A. V. S. Brillo, who claimed the accused had thrown clouds of dirt on his front porch at Twelfth and Peralta streets.

Mrs. Brillo testified positively that she saw Morris throw the dirt, but the latter proved positively that at the time of the alleged offense he was training at the quarters of the West Oakland Athletic Club.

Fitchburg Funeral.

FITCHBURG, March 19.—The funeral of Mrs. Sophia Hauer, who died here last Sunday, took place at 2 o'clock this afternoon from the family residence on Henry and Warren streets. The interment was in Mountain View Cemetery. Deceased was a native of Flenburg, Germany, aged 62 years and 8 months. She was the wife of Fred W. Hauer.

To Prevent Pneumonia and Croup. Latent Bromo-Quinine removes the cause.

SCHUYLER CALLS DOWN HAYNE.

Noted Expert Defends Himself on the Witness Stand.

When the water case was resumed this morning before Judge Hart in the Superior Court, Engineer Schuyler was still on the stand under cross-examination by Attorney Hayne, the subject matter being the Phinele water scheme.

Witness read from a paper showing the various heights of the proposed dam at Phinele at various distances between the two ends of the dam. The greatest height of the dam would be 145 feet and that was at a distance of 60 feet from one side. Witness said he thought the maximum height of the San Leandro dam, 135 feet, was maintained for a distance of about 50 feet. The slope of the sides of the San Leandro dam can be 1:1 to 1. The sides were somewhat precipitous. In a distance of 35 feet there was a drop of 25 feet and in another distance of 25 feet, there was another drop of 25 feet.

Witness drew a cross-sectional view of the San Leandro canyon showing the bottom of the creek to have a width of 90 feet and the top of the dam crossing the canyon to have a width of 100 feet. "Do you say," asked Hayne, "that the steeper the slope the deeper is the vertical distance?"

"The term has a different meaning," said Hayne. "That is what you are trying to indicate, Judge Hayne?" Then McCutcheon broke in upon Schuyler.

"I submit, your honor," he said, "that if counsel has any question that he wants to put to this witness, he do so and stop his tactics of this kind."

Hayne then returned to a legitimate series of questions, every one of which received a direct answer.

Hayne, when he had concluded his cross-questioning, referred to Judge Hayne for the incoming instruction which he had made a short time previous, declaring in manner which was intended to be sweet and pleasant, but was not, that he had not intended to insult the witness.

"I accept your apology," said Engineer Schuyler. "We'll bury the hatchet."

Mr. McCutcheon asked some questions on re-direct examination. Witness drew a sectional view of the San Leandro dam with its massive proportions, especially the sub-base, the dimensions being the same as those given in the foregoing. The immense sub-base gave the dam practically but a height of sixty-four feet. To place the Phinele project on a similar footing with that at San Leandro such a base would have to be supplied and it would require over 700,000 cubic yards to supply it.

"Is it possible to make comparison of price of work at San Leandro and at Phinele?"

"An individual piece of work may be compared with another piece, but the general work price could not be compared."

Witness stated in answer to further questions that there would be a reduction of the capacity of a flume of four by six feet, with a grade of five feet to a mile, because of curves and angles made necessary by the course, but he could not specify what would be the

height of the dam.

Hayne then took another task and referred to it a discredited manner, the witness giving evidence of tiring of the upbraiding of his accusers which Hayne indulged in. The anti-water-company's at-

percentage of reduction. Adobe was not considered good material for dam building because of the difficulty of getting it into condition to resist water pressure. Witness' plan provided for a core wall and a puddle wall and he explained how they could be carried out. There would be no settlement in the core wall after the dam had been completed. The settling would take place while the wall was in the course of erection. The length of his proposed dam at Phinele was 1,070 feet, that of the other dam suggested on a map was 1,300 feet, although there was nothing in the map which gave the length accurately. He had made no examination of the San Leandro dam for W. H. Hall. He could not recall having reported to Hall on sluicing of San Leandro. The last he knew of Hall's or the State's records were at Sacramento.

McCutcheon censured and Hayne handed witness a typewritten document and asked him if it were a copy of a report he had made to Mr. Hall. Witness said it was a report on reservoirs in Los Angeles and San Bernardino counties. He was asked if he had any doubt that he had made the report. He said it appeared to be a copy of a report he had made. Reference made in the report in 1880 to the cost of sluicing at San Leandro dam was made on hearsay and not on the information of witness, who had not examined the dam at that time. It was possible that up to 1881 sluicing would cost from three to ten cents. Later sluicing cost a great deal more. This was because material was more distant and more difficult to secure. When witness saw the San Leandro dam in 1892 it was very difficult, indeed, to secure material. In the sluicing at Phinele the water would have to be pumped and that would be an element in the cost. Sluicing there would cost twenty cents. The difference in the cost between water pumped and water secured by gravity would depend upon a number of circumstances.

RECORDS OF 1880.

In the afternoon Arthur L. Adams, engineer for the Water Company, gave estimates of the cost of the proposed Phinele dam. Exclusive of lands, water rights and land damages, he estimated the cost of the dam at \$1,100,000, including 20 per cent for contingencies, loss of interest and contractors' profits. He said the proposed reservoir would require a dam 1,070 feet long and 145 feet high, 25 feet wide at the apex and slopes 3 to 1. This was for an earth dam. If suitable materials could not be obtained close by it would be necessary to change the type of the dam. In the absence of clay of the proper quality it would be necessary to construct a masonry core which would considerably enhance the cost. He said the plans of the proposed system were so very meager that it was difficult to make anything like accurate estimates. He did not think the dam could be built under any circumstances for much if any less than his estimate and might cost a great deal more. The dam site has never been sufficiently tested by boring or excavation to give a correct idea of the formation underneath. He could recall no instance where a deposit of clay suitable for dam construction was found under black adobe. This is a blow at Allard's proposition.

Hayne said he was "mixed," and witness said he was sorry to have the attorney mixed so easily. Hayne did not like the thrust, which was given while the witness maintained a smiling expression of countenance.

Hayne then took another task and referred to it a discredited manner, the witness giving evidence of tiring of the upbraiding of his accusers which Hayne indulged in. The anti-water-company's at-

height of the dam.

"Oh, the San Leandro dam is much flatter," replied Mr. Adams. "Its slopes are not nearly so steep as three to one."

Hayne subsided and was quiet for the succeeding two or three minutes. Mr. Adams also gave the plans of the city's engineers a black eye in his suggestion about the disposal of the wasteage. Instead of constructing a waste-way of the dam discharging into the bed of Phinele creek at the base of the dam he proposed to utilize the tunnel through the ridge for the San Pablo and Bear Creek flume as a waste-way. That is, he proposed to use the tunnel for the double purpose of conveying water into the reservoir and discharging waste in case of an overflow. He considered this plan cheaper and safer than dropping the waste into the creek just below the dam.

He then turned to the San Leandro dam. "What about the San Leandro dam?" he asked.

"Oh, the San Leandro dam is much flatter," replied Mr. Adams. "Its slopes are not nearly so steep as three to one."

Hayne subsided and was quiet for the succeeding two or three minutes. Mr. Adams also gave the plans of the city's engineers a black eye in his suggestion about the disposal of the wasteage. He then turned to the San Leandro dam. "What about the San Leandro dam?" he asked.

"Oh, the San Leandro dam is much flatter," replied Mr. Adams. "Its slopes are not nearly so steep as three to one."

Hayne subsided and was quiet for the succeeding two or three minutes. Mr. Adams also gave the plans of the city's engineers a black eye in his suggestion about the disposal of the wasteage. Instead of constructing a waste-way of the dam discharging into the bed of Phinele creek at the base of the dam he proposed to utilize the tunnel through the ridge for the San Pablo and Bear Creek flume as a waste-way. That is, he proposed to use the tunnel for the double purpose of conveying water into the reservoir and discharging waste in case of an overflow. He considered this plan cheaper and safer than dropping the waste into the creek just below the dam.

He then turned to the San Leandro dam. "What about the San Leandro dam?" he asked.

"Oh, the San Leandro dam is much flatter," replied Mr. Adams. "Its slopes are not nearly so steep as three to one."

WHAT EAST THINKS OF ROSS CASE

Lively Comment on the Doings at Stanford.

Some new light is thrown upon the case of Professor Ross of Stanford University, which has been fully treated in our pages (see the Literary Digest for December 1 and January 2), by the recent report of a committee of investigation appointed at an informal meeting held in connection with the last annual session of the American Economic Association at Detroit. The committee consists of Prof. E. R. Sargent of Columbia University, Prof. H. W. Farnham of Yale University and Prof. H. R. Gardner of Brown University, and their report is induced by the following: Horace White, editor of the New York Evening Post; John B. Clark, Columbia University; Henry C. Adams, University of Michigan; Frank W. Taussig, Harvard University; Richard T. Ely, University of Wisconsin; Simon N. Patten, University of Pennsylvania; Richmond Mayo-Smith, Columbia University; John C. Schwab, Yale University; Sidney Sherwood, Johns Hopkins University; Franklin H. Giddings, Columbia University; William J. Ashley, Harvard University; Charles H. Hull, Cornell University; Davis R. Dewey, Massachusetts Institute of Technology; Henry C. Emery, Yale University; and Henry R. Seager, University of Pennsylvania.

"This document will undoubtedly carry weight," remarks the Chicago Evening Post, "for the impartiality of the committee is beyond question." The committee finds: (1) There is no evidence to show that Professor Ross gave occasion for his dismissal by any defect in moral character. (2) There is no evidence to show that he gave occasion for his dismissal by incompetence. (3) There is no evidence to show that he gave occasion by any unfaithfulness in the discharge of his duties. (4) There is no evidence to show that in his public statement of November 14, 1930, he violated any confidence reposed in him. On all these points the written testimony of President Jordan leaves no room for doubt. Concerning the charge (5) that Professor Ross gave occasion for his dismissal by remarks derogatory to Senator Stanford, the professor unequivocally denies that he was ever guilty of such impropriety. Moreover, President Jordan, in a letter dated November 18, himself declared, in reference to these charges, that "he had never heard anything of the sort before." President Jordan also stated in May, 1930, that Professor Ross "never stepped outside of the recognized rights of a professor" in making public his views on social and political questions. The committee comes to the conclusion that Mrs. Stanford forced Professor Ross' resignation on account of her personal antipathy to his views; and a quotation from a letter written by President Jordan to Professor Ross in June, 1930, leaves the reader to infer that her hostility was based on "chance matters and other dicta," not upon the professor's serious work.

An editorial on the Ross case that the New York Evening Post condemning the "various pretexts, evasions and equivocations of President Jordan" in most scathing terms, it declares:

"Mrs. Stanford may, once for all, be left out of the consideration. She is, doubtless, a woman of excellent intentions, but obviously she is incapable to new ideas. Not so, however, with President Jordan; he has clung against the light. Instead of adhering to the principles of Justice and Liberty which he had so solemnly agreed upon Mrs. Stanford, instead of offering his own resignation in defense of what he knew was the right, he gave way. Whether he was actuated by fear of losing his own position or by fear that further dispute between him and Mrs. Stanford would hurt or even destroy the university, the result is much the same. For the sake of a possible contingent good, he committed a deliberate wrong. He had had delivered into his keeping a great trust; but, forgetting that a success won through the violation of fundamental principles of morality is inevitably disastrous failure, he was recreant to his trust. Whatever may have been his past service in the cause of education, whatever he may do in the future, the fact remains that in the crucial test he has flunked."

When addressed by the committee, President Jordan refused to "enter into any circumstantial description of events leading to or following from Professor Ross' dismissal." He made the following statement:

"First: Professor Ross was not dismissed on account of his views on Oriental immigration, nor on account of his opinions on any economic question.

"Second: Professor Ross was dismissed because, in the judgment of the university authorities, he was not the proper man for the place he held. The responsibility for the correctness of this judgment belongs to the university authorities and to them alone.

"Third: No ground exists for any interpretation of his dismissal reflecting on his private character, of which your letter seems to imply a fear.

"Fourth: The judgment that Professor Ross was not the proper man for the place he held is not incompatible with my appreciation of many good qualities he possesses, nor with my wishes or efforts at any time to further his prospects. I have been neither ignorant of his pro-

fessional shortcomings nor unappreciative of his good qualities. Of such unappreciation Professor Ross has himself adduced several expressions from my letters."

One of the staunchest supporters of the course pursued by President Jordan and the university authorities is the New York Tribune. It says:

"Suppose that a professor in the Princeton Theological Seminary should see fit to instruct his classes that God is a mere 'strange tendency'; that there is no assurance of a future life, and that in any case the theory of a divine atonement for human faults is absurd. Would the professor asserting such propositions and urging his pupils to accept them be dismissed, with or without the formality of a forced resignation?"

Imagine the case of a professor of physiology at Princeton who should endeavor to convince his classes, and through them the world, that Harvey did not make a great discovery, but a gross blunder; that the blood does not circulate, but remains stationary in the body. Would he be secured in the possession of his chair as long as he desired to keep it, or would he be discharged? And if he were discharged, would he be a martyr? What would occur if an instructor at Princeton should teach that the so-called law of gravitation is not a law at all, but a false assumption which has been erroneously accepted by a majority of intelligent persons while natural events were all the while conclusively refuting it? Which would have to go in such a case—the bold teacher or freedom of teaching? Again, would a professor be proper and valid if a surgeon-instructor and demonstrator should advise his pupils to reject the germ theory, discredit disinfectants and antiseptic processes, and occasionally, by way of proving their faith, smear their instruments with dangerous matter?"

In the discussion arising out of recent occurrences at Stanford University," continues the Tribune, "some people defenders of intellectual liberty have been betrayed into an assertion of views which they do not really hold. Freeedom of teaching, truly discerned, is an indispensable condition of educational development. We believe that it is safe everywhere in the United States, though the attempt to foist a caricature into its place may involve dangerous possibilities."

In rebuttal of this argument the Evening Post replies that Mrs. Stanford's defenders place Stanford University in this category as denominational or proprietary schools, and that by so doing they "practically admit the whole argument against her management"—Literary Digest.

LIVERMORE GIRL INJURED PLAYING BASKET BALL.

Shearing Has Begun on the Sheep Ranges—Notes From Murray Township.

LIVERMORE, March 19.—Twenty new pupils entered the grammar school at the beginning of last week. They are all new-comers to the community and they hail from all parts of the Union, belonging to families who have been attracted to this State by the efforts of the railroad companies.

Shearing has begun on several sheep ranges in the valley and adjacent hills. It is several weeks earlier than usual, but sheep men say that the animals do not suffer from the cold when the feed is luxuriant as they do when it is short. The clip promises to be large and of good quality.

At the last meeting of Las Positas Parlor No. 96, N. S. G. W., delegates and alternates to the Grand Parlor were elected as follows: Delegates, A. W. Fidler and Fred Mally; alternates, Henry Hupers and W. E. Bangs. Mr. Fidler is being urged by his friends as a candidate for Grand Trustee.

Wm. McPhee, formerly of Livermore, who was reported lost in the wreck of the Ito Janeiro, is still in the land of the living. Friends here have received letters from him stating that he did not sail on that steamer and that he is still in Honolulu.

A very pleasant dancing party was given at the residence of P. H. Christensen recently. About twenty couples were present. The music was furnished by S. B. Sorenson and Mr. Anderson. Refreshments were served at midnight.

Chris Christensen and Mads Moller have been elected to represent the local Dala Society at the Grand Lodge which meets in Hayward on April 24 for a four days' session. The Hayward Society is making great preparations for the event and it is likely that the present session will be the most enjoyable ever held by the Grand Lodge.

Mrs. Annie Martin fell while playing basket ball at the High School Thursday and sprained her arm so badly that she was compelled to seek medical attention and leave school for the remainder of the week.

FRUITVALE

Was Run Down By a Wagon—Motormen and a Conductor Appointed.

ELMHURST.

Mr. Gibson of the California Cycling Club of San Francisco broke his left forearm in three places Sunday morning, while riding about Elmhurst. As Mr. Gibson turned a corner a wagon ran him down. The driver did not stop to see what damage he had done, but instead lashed his horse and drove away.

Three new matmen and one new conductor have been added to the forces of the Oakland, San Leandro and Hayward Electric road. Messrs. J. Black, R. E. Thomas and A. L. Perkins turn the lever, while T. Wood pulls the bell strap.

Miss Alice Williams of Antioch spent some time with friends in Elmhurst recently.

LORIN

There is only ONE POND'S EXTRACT, and everybody knows its purity, strength and great medicinal value. Don't take the weak, watery Witch Hazel preparations represented to be "the same" as POND'S EXTRACT. They generally contain "wood alcohol," which irritates the skin, and, taken internally, is a deadly poison. Get genuine POND'S EXTRACT, sold ONLY in SEALED bottles, in BUFF wrappers.

For the longer—Ages—Strengthens

BERKELEY MAN IS GIVEN A HEAVY FINE.

Plan Is Being Considered to Get More Water for the State University Grounds.

BERKELEY, March 19.—A plan is being considered for furnishing the grounds and buildings of the Greater University with an abundance of water. It is proposed to dam Strawberry Creek above Piedmont way in the hills and form a reservoir. Professor Mead, Lawton and Soule have gone over the ground and think that in this way a supply of water could be obtained sufficient for fire and irrigation purposes.

During the entire year the stream is of considerable size and in the rainy seasons it is filled with water.

LITERARY RULES.

BERKELEY, March 19.—The University has decided to grant to the citizens of Berkeley the much-sought privilege of using the college library. Hereafter persons resident in Berkeley who may desire to pursue courses of study or reading without becoming members of the University may have full student privileges in the library. The only condition is that each application must be countersigned by two members of the faculty and be accompanied by a deposit of \$10 in the office of the secretary of the University. The deposit, less charges for damage and fines for violation of rules, is returnable to the depositor when he no longer wishes to use the library. The privileges lapse at the end of each fiscal year but may be renewed upon application to the librarian.

CASTS SELECTED.

BERKELEY, March 19.—The seniors of the Berkeley High School have selected casts as follows for their class day curtain raiser and farce:

"Proposed Under Difficulties"—Yardley, Richard Snell, Balow, Don McKee; Dorothy, Miss Rhoda Howell; Jennie, Miss Eliza Lyser.

"Vie Versa"—Buttitude, E. G. Linscott; Dick, William Mason; Dick, Grimstone, Duane Stoner; Shellback, George Warner; Hoaler, Dudley Saalzer; Daisy, Miss Christine Klinghorn-Jones; Eliza, Miss Ella Ross; Dulcie, Miss Hallie Whitlock; Connie, Miss Anna Gage; Clegg, Charles Volk; Hodoo, Tom Hutchins; Tipping, Warren Meyers.

PAID A FINE.

BERKELEY, March 19.—Henry Herzog, who was found guilty last Saturday of assaulting James Gallagher, was fined \$10 by Justice of the Peace Edgar. The man is having a hard time raising the money to keep him out of jail.

The testimony showed that Henry Herzog and his brother Charles had enticed Gallagher into their butcher shop and locked the door and then beaten him almost to insensibility. Gallagher is only 16 years of age and simple-minded.

ADD NILES.

SAN LEANDRO MAN DIES OF PNEUMONIA.

Jack Donovan Is Thrown From a Horse and Sustains a Fracture of the Shoulder.

SAN LEANDRO, March 19.—Messrs. F. H. Bailey and F. Bock of Alameda spent Sunday in San Leandro.

George H. Smith and family, formerly of Oakland, have moved to San Leandro, where they will make their permanent home.

M. Owens, Mrs. K. Owens, and Miss M. Owens of Alameda spent Sunday in Alameda with friends.

T. E. Carey is home after a short stay in Oregon. His friends are pleased to see him and he is glad to get back.

John Marshall died yesterday afternoon.

He had been suffering from pneumonia about a month. Deceased leaves a wife and four children.

Jack Donovan, while riding a frisky horse Sunday evening, was thrown to the ground. When he was picked up and carried to his home he was found to have a broken shoulder.

NEWS NOTES.

A return game of base ball will be played in Hayward next Saturday afternoon, March 23. The Centerville nine will cross bats with the Hayward High School team.

The members of the Eden Parlor of Native Sons will elect their delegates to the Grand Parlor at their next meeting, Wednesday evening, March 20.

Edwin Parker of San Francisco visited friends in Hayward recently.

The regular meeting of the trustees will be held in the town hall tomorrow evening.

HIS LIFE WAS SAVED.

Mr. J. E. Lilly, a prominent citizen of Hambleton, Mo., lately had a wonderful deliverance from a trifling ailment in walking about the city. He was taken to a hospital, where he ran into Pneumonia. His lungs became hardened. He was so weak he couldn't even sit up in bed. Nothing helped him. He expected to soon die of Consumption, which had plagued Dr. Newell for years. One bottle of medicine, however, put him on the mend again.

Three new matmen and one new conductor have been added to the forces of the Oakland, San Leandro and Hayward Electric road.

Messrs. J. Black, R. E. Thomas and A. L. Perkins turn the lever, while T. Wood pulls the bell strap.

Miss Alice Williams of Antioch spent some time with friends in Elmhurst recently.

ALAMEDA COUPLE WERE MARRIED ON THE QUIET.

Trouble Over One Dollar in a Fire Company—Notes From Encinal City.

ALAMEDA, March 19.—The marriage of Guy L. Pocock of 1009 Union street and Miss Ida T. Higgins of 1021 Taylor street was announced today. Mr. Pocock is a clerk in the Bank of British Columbia at San Francisco. The marriage ceremony was performed at Santa Clara last September by the Rev. Father Kenna, president of Santa Clara College. The members of the family knew of the marriage at that time, but no announcement was made until today.

TRROUBLE OF FIREMEN.

ALAMEDA, March 19.—Over a matter of \$1 there is a rupture imminent in Sherman Hose Company No. 3 of the Volunteer Fire Department. Four months ago this company gave a ball and tickets were taken for sale by the members. Sam Josephs of the department, who is also district engineer of fire district No. 2, was suspended a week ago. James C. Hanley, the Secretary of the Sherman Hose Company, says that \$1 is the sole reason for letting Josephs out.

ESCAPE OF FIREMEN.

for Easter have just come
and are now on display. New
Laws, Organizes, Check and
other Missed Newsbooks, etc. See
them.

Evenings Are Yet Chilly

although summer appears to have come to stay. Perhaps the year round, nothing is so generally desirable as a light, warm Feather Boa. Occasionally a merchant gets a chance to buy under exceptionally favorable circumstances—we have just had such a chance in Boas.

Very full, real Ostrich Boas, 45 inch, black.....	9.00, 11.00, 12.00 and up to 19.00
In gray.....	12.00, 14.75, to 17.50
Natural.....	10.00
54-inch Boas, black.....	16.50 to 25.00
gray.....	10.00 to 17.50
All these Boas are fully 20 per cent below usual selling prices.	

Real Ostrich Boas with silk chenille ends—another specially good offer. Prices...5.00, 6.00, 7.50

Regular values are 7.50, 9.00, 12.50.

Any of these Boas would make a very appropriate Easter gift, but you must not wait.

New Summer Dress Goods

are more beautiful and in far greater variety this year than ever. In addition to all staple wash dress goods, there are rich mercerized duplications of all the handsome real silk weaves and patterns, but they only cost half as much and possess twice the durability. Prices of the entire line range from 8½c upward.

That Handsome Tailor Made Suit, exquisitely tailored throughout, that caught your eye in church or on the street car, was probably from the Lace House. We are selling just such suits daily since our Spring opening. We have a dressy, silk-lined tailor-made suit, which we guarantee to fit perfectly, for \$12.50. Other suits from \$7.00 up to any value desired.

PORTUGAL'S KING DEAL STERNLY WITH RIOTERS.

Carlos Tells Liberals They Can Count on Him.

Moscow Police Check a Threatened Outbreak.

Associated Press Dispatches by The Tribune's Special Leased Wire. LISBON, March 12.—King Carlos, responding to a committee from Oporto, which waited upon his majesty to demand a separation of religion and the State.

"Oporto can count on me in these serious times. The freedom of religion and the State must be safeguarded by the adoption of prudent measures and application of laws which should control our conduct. I am a Liberal by principles, traditions, education and the teaching of my father. I will recommend this subject to the government and will follow it with especial attention. You can count on the government."

Telegraph Official Dead.

Associated Press Dispatches by The Tribune's Special Leased Wire. CHICAGO, March 19.—Leander Parker, for eighteen years general superintendent of the Postal Telegraph, died at his home in Evanston today after a long illness.

Mr. Parker resigned his position with the Postal Telegraph Company the first of the year, owing to ill-health. Mr. Parker had charge of the construction of the western lines of the Postal when that company was extending its system through the West. He entered the telegraph service in 1855 and for the first three years of the civil war served as military operator. Mr. Parker was born in Canada in 1827.

REBEL CHIEF CAPTURED.

Associated Press Dispatches by The Tribune's Special Leased Wire.

MANILA, March 19.—Captain Shanks of the Eighteenth United States Infantry has captured Diocino, the noted Tagal leader in Capiz province, Island of Panay. Two rebels were killed and three, including Diocino, were wounded.

KILLED BY AVALANCHE.

Associated Press Dispatches by The Tribune's Special Leased Wire.

LONDON, March 19.—A dispatch from Rome says eight soldiers and customs officers have been killed by an avalanche near Lake Como.

W. C. T. U. Leader Dead.

Associated Press Dispatches by The Tribune's Special Leased Wire.

INDIANAPOLIS, Ind., March 19.—Mrs. Zerelda G. Wallace, widow of the late Governor Wallace, died today at the home of her daughter, Mrs. J. H. Steiner, at Cataraqui, near this city, aged 81 years.

Mrs. Wallace was the step-mother of General Lew Wallace, the author. She was known throughout the United States because of her connection with the W. C. T. U. and woman suffrage work.

Church May Mortgage.

The Fruitvale Congregational Church Society has been authorized to mortgage its property for \$1,100.

CANVASS OF THE COUNCIL IS COMPLETED

Voters Had Some Fun Casting Ballots for a Joke.

The returns of the municipal election as published in full in last Tuesday's Tribune, were found to be correct with very few exceptions, at the canvass concluded by the City Council last night. The canvass occupied seven hours.

Some little delay was occasioned on account of the tally sheets for the second precinct for the Third Ward being missing, only the duplicate affidavit of registration being found in the big envelope. Chairman Barstow pressed the button for a policeman, who late in the evening brought in the inspectors with the tally sheets.

BARSTOW GAINED VOTES.

The canvass showed that in the Fourth Ward, Second Precinct, Manuel received for Mayor 33 instead of 41 votes, total 2,898; Barstow thus gaining 5 votes, total 2,943; Davie in the First Ward, Third Precinct, lost 1 vote, and in Fourth Ward, Fourth Precinct, lost 6; total 2,465; English lost 5 votes in the Fourth Ward, Fourth Precinct, and 1 in the Sixth, Tenth Precinct, total 382.

BREED LOST SEVENTY-FIVE.

In the vote for Auditor, Breed lost 6 votes in the Fourth Precinct of the Second Ward, gained 5 in the Sixth Precinct of the Third, lost 5 in the Seventh Precinct of the Fifth, gained 1 in the Fourth Precinct of the Sixth, lost 10 in the Sixth Precinct of the Sixth Ward, total 3,458.

Gross lost one in the Fifth Precinct of the Second, but gained one in the Sixth Precinct of the Sixth Ward, total 3,459.

DOW GAINED ONLY THREE.

For City Attorney Dow gained but 3 votes in the First Ward, total 3,802, and Johnson lost 10 in the Second, but gained 5 in the Sixth, total 4,682.

TURNER GAINED.

Miller, for Engineer, lost 2 in the Fifth Ward, total 3,365; Turner gained 5 in the same ward, total 3,465; Fontaine gained three in the Fourth, and 1 in the Sixth, total 577.

COUNCILMAN-AT-LARGE.

For Councilman-at-large Duthiehall gained 11 votes, making his total 3,220; Cawell lost 2 votes, total 3,513; Daly gained 15, total 3,260; Durnin lost 6, total 3,410; Allen's remained unchanged, Bon's likewise, 3,453; Gaylord lost 18, total 3,140; Little lost 1, total 3,165; McMillian lost 2, total 2,003; White gained 10, total 1,589; Bassett gained 9, total 1,006; Fuchs gained 4, total 664.

SOME FRIKAT VOTERS.

There were but few slight changes in the vote for ward Councilmen. School Directors and Library Trustees. There were, as usual, some dead voters. Two votes were counted for Max Marcuse, Major Waters, T. B. H. Rosenberg and Carrie Nation for Library Trustees; Henry Shliman received a vote for Councilman-at-Large in the Fourth Ward; Henry Hademan 1 for School Director; George W. Weaver 1 for City Attorney; A. Olander, L. Hynes, J. Gray, C. Coniffe and T. Delke 1 each for Library Trustees.

The Council adjourned to meet again tonight when the totals, footed up, will be announced, and President Barstow will declare the favored ones elected.

During the disturbance one of the students read a proclamation by the students' committee demanding the abolition of the military service regulations and a jury trial for Karpovich, who shot and fatally wounded the Minister of Public Instruction, M. Bogolepsky, last month.

A rumor was in general circulation that two or three persons had been killed, but no eye witnesses of these reported fatalities can be found.

A curious crowd remained in the vicinity of the disturbance until late in the evening and persistently spread reports of horrors in Moscow. It is asserted, though, without a demonstrable foundation, that the Chief of Police was killed.

MINISTER WU IN CHICAGO.

Associated Press Dispatches by The Tribune's Special Leased Wire.

CHICAGO, March 19.—Wei Ting Fang, the Chinese Minister, who will deliver the convocation address of the University of Chicago at the Studebaker Theater late this afternoon, visited the Art Institute this morning. He spent some time wandering through the big galleries and halls, commanding and asking questions of his escort.

Previous to visiting the Art Institute, Minister Wu received a delegation of newspaper men and for fifteen minutes interviewed them successfully. He refused to make comments on the political situation in this country, either returning evasive answers or simply evading the questions asked.

Minister Wu is the honored guest of honor at a luncheon given at the Union League Club by President Harper of the University. This evening he will attend the University congregation dinner at the Quadrangle Club.

AUTOMOBILE ROBBERS ARE ARRESTED.

Four Big Policemen Land the Prisoners in Jail.

Sammy Hawkins, colored, and Jerry Dorsey, both aged 16, have the distinction of being the first to hold up an automobile, their booty consisting of 100 cigars, and it would appear that their capture and arrest was no small trick, to accomplish.

The automobile is owned by a wholesale tobacco house, and while the operator was in a store taking an order the two boys helped themselves to 100 cigars in the vehicle.

According to the City Prison Register, young Hawkins was arrested at 585 Brush street. It required the combined efforts of Sergeant Green, Officers Latson, Quigley and Garrity to arrest the boy. In other words, for every four years of Sam's life he required one policeman; he weighs 110 pounds, and for every 27½ pounds of his weight it required a 20-pound policeman, and for every foot and three-quarters of an inch of Sammy's height it needed a six-foot guardian of the peace.

The Dorsey boy was 1st arrested at 513 Union street by the same quartet in the same proportions. Both boys pleaded guilty to a charge of petty larceny in the Police Court this morning.

They will receive their sentence next Friday, the usual "hang day."

BRITISH SUGAR DUTY.

Associated Press Dispatches by The Tribune's Special Leased Wire.

LONDON, March 19.—The prospectus duty on sugar is agitating the West India Committee, which is trying to entice the aid of the Colonial Office in support of their views. The committee holds that the imposition of a duty will practically amount to a prohibition of the importation into this country of anything but refined sugar and would therefore be most detrimental to the interests of the sugar colony. In the event of a duty being decided upon the committee will point out that the scheme ought to provide at least four different rates of duties for sugars of varying qualities and that the quality should be determined by the process of polarization, an color is no longer a proper test. The committee is also of the opinion that glucose, saccharine, etc., ought to be taxed proportionately.

DIAZ ALL RIGHT.

Associated Press Dispatches by The Tribune's Special Leased Wire.

WASHINGTON, Mar. 19.—Mr. Manahan, Secretary of Foreign Relations in Mexico, in a telegram from the Mexican capital dated yesterday, says to Ambassador Aspasia: "President Diaz's health is completely restored; his illness never presented any alarming symptoms nor indicated brain disease."

"In last January he went to seek a warmer and milder climate near the City of Mexico; he will return to this city within three days."

PRETORIA CONSUL.

Associated Press Dispatches by The Tribune's Special Leased Wire.

WASHINGTON, Mar. 19.—The status of the Transvaal and Orange Free State in the eyes of the Government of the United States probably will be for the first time fixed when a Consul General is sent out to Pretoria to succeed Abelard Hay, who has just returned to Washington on leave of absence, but without the purpose to go back to Pretoria. It is said that so far there has been reluctantly no official declaration on that point.

ESTATES IN PROBATE.

Edwin L. Meyer has applied for letters of administration on the estates of his parents, Louis Meyer and Anna E. Meyer. The former died January 20th of this year. Mrs. Meyer died in 1884. The estates are valued at about \$2,500. The heirs are the petitioners and two brothers, George H. and William J. Meyer.

I. N. Miller Jr., Edwin J. Folger and R. L. Potter have been appointed to appraise the estate of Frank H. Steele, deceased.

The will of Elizabeth Laver, deceased, has been admitted to probate and letters testamentary granted to Robert Harrison.

Charles J. F. Laver has been appointed administrator of the estate of Augustus Laver, deceased.

KENNEDY NEARLY MURDERED

loss of over \$15,000, partially covered by insurance.

Adopted a Grandchild.

Mr. and Mrs. J. J. North have legally adopted their grandchild, Adele M. North, aged 3 years. The child's mother is dead. The father, S. D. North, consented to the adoption.

Cut His Chin.

Carl Altman, a carpenter residing at 695 Twenty-first avenue, was treated at the Receiving Hospital this morning for a lacerated wound on the chin resulting from a fall.

Free Employment Bureau.

The Volunteers of America propose to open a free employment bureau at 101 Ninth street.

OFFICIAL RECORDS.

MONDAY, March 18, 1901.

DEEDS

Mar. 11.—Alma Gild to John N. Green, all int. W. Center St. 15 N. W. 1st at N. 20 W. 9 ft. 11 in. and 5 ft. 6 in. lot map of Peruta and Center st. lots. Oklo. USHS 100.

Peterson was drunk and staggering down Clay street, near Twelfth, brandishing a six-shooter. He fired a shot at Kennedy as the latter was walking over toward the First Congregational Church.

Kennedy ran down Clay street to Reed's grocery, with Peterson in hot pursuit, but the latter lost track of Kennedy as the attorney ran into the store to telephone for the police.

Peterson staggered down Clay to Seventh, and on re-taking his tracks saw the patrol wagon approaching, when he ran into a stable of the Parcel Delivery on Ninth street, where he was disarmed and taken to the City Prison.

Peterson was looked for drunk and carrying a concealed weapon.

Kennedy is no acquaintance of Peter-

son and attributes the latter's action to his inanity. The bullet fire went through a board fence opposite the Y. M. C. A. building and into a store next to the Clock Company's place of business.

TO MODIFY KING'S OATH

Associated Press Dispatches by The Tribune's Special Lassoed Wire.

LONDON, Mar. 19.—In the House of Lords today Lord Salisbury, referring to the question raised by the "No Popery" oath taken by the King, said he must regret very much that language of such indecent violence had ever been placed in the King's anti-Catholic oath, but if it were modified or replaced a great many people perfectly sincere, though not very wise, would say that such an amendment supporting transubstantiation, he proposed in behalf of the government that a committee be appointed to consider the declaration required of the Sovereign on his accession and whether its language could be modified sufficiently without diminishing its efficiency in securing the maintenance of the Protestant supremacy.

TRAINED ANIMAL SHOW TONIGHT.

Norris & New's great dog and pony show will give a performance tonight, tomorrow afternoon at 2:30 and tomorrow evening. It is one of the best trained animal shows in the country. The tents are packed at each performance.

MARRIED FOR TWENTY YEARS AND WANTS DIVORCE.

After twenty-seven years of married life Mrs. Anna Mary Dunlap has decided that she will be happier living apart from her husband, Preston Harvey Dunlap. She commenced suit today through her attorneys, Gibson & Wroble, for a divorce on the ground of failure to provide. She also asks the custody of their minor children, Arthur Silliman Dunlap, aged 14 years, and Olga Marie Dunlap, aged 14 years.

The Dunlaps were married in 1874 at Blawkrust, Ill. They have resided in this state about ten years. Mrs. Dunlap alleges that of late years her husband has spent his time in idleness and dissipation and that he is wholly failed and neglected to provide his family with the common necessities of life. It is for this reason that Mrs. Dunlap seeks to be freed from her husband. The children are now with their mother.

FUNERAL OF THE LATE HENRY R. MILLER.

The funeral of the late Henry R. Miller took place at 2 o'clock this afternoon from the family residence, 22 Boulevard Terrace, Rev. Robert Bittle, rector of St. Paul's Episcopal Church, conducting the services. There were many beautiful floral tributes and a large number of friends gathered at the Miller residence to pay their last respects to the departed. The interment was in Mountain View Cemetery.

Owing to the widow's presence at the sick bed of her son, Harry H. Miller, at Chico, she was unable to attend the funeral. Besides this son deceased left another son, Bernard H. Miller, a promising young attorney.

Henry R. Miller was a native of New York, aged over 65 years. He came to California in the early 50's and engaged in business in Sacramento. He served during the Civil War as a Lieutenant in the Second California Volunteers, and resided in Oakland for the past twenty-seven years. His death was due to apoplexy, from which he had long suffered.

PUT IT ALL ON HIS MOTHER-IN-LAW.

Lulu Welch is suing Robert Welch, a Berkeley letter carrier, for a divorce. The latter today filed his answer. He says he has been married the months and that his mother-in-law is an arrogant, quarrelsome person and is the cause of all his trouble.

Weather Bureau Convention.

Associated Press Dispatches by The Tribune's Special Lassoed Wire.

WASHINGTON, March 19.—Prof. William L. Moore, Chief of the Weather Bureau, under the authority of Secretary Wilson has called the triennial convention of Weather Bureau officials at Milwaukee, Wis., August 27 to 29 next. Buffalo, Chattanooga, Denver and San Francisco were also competing for the honor. About one hundred officials will be present, including Secretary Wilson, Chief Moore and experts from the West Indies.

Ship Plant Burned.

Associated Press Dispatches by The Tribune's Special Lassoed Wire.

PORT HUEN, Mich., March 19.—Fire today destroyed the Jenks Ship Building Company's plant, entailing a

loss of over \$15,000, partially covered by insurance.

Adopted a Grandchild.

Mr. and Mrs. J. J. North have legally adopted their grandchild, Adele M. North, aged 3 years. The child's mother is dead. The father, S. D. North, consented to the adoption.

Cut His Chin.

Carl Altman, a carpenter residing at 695 Twenty-first avenue, was treated at the Receiving Hospital this morning for a lacerated wound on the chin resulting from a fall.

PERKINS VERY SICK.

U. S. Senator Is in a Very Serious Condition.

Senator George C. Perkins is in a serious condition.

Overwork and gout are the cause of his trouble. His friends and relatives are anxious to get him to the springs but his physician directs that his condition at the present time is too critical for the Senator to be moved.

The day of rest which Senator Perkins experienced yesterday after his return from Washington had a beneficial effect.

Today, the attendants at his home announced that the Senator had somewhat improved but was, at the same time, a very weak man.

His physician says that the Senator's physical powers have been exhausted by overwork at Washington and that recuperation can come only from a long rest and an indulgence in remedial agents which may be found at some established springs.

The Senator would have left today for some resort of the kind mentioned but his condition was not such as to enable him to make the effort. As soon however, as he can stand the fatigue of travel he will pay a long visit to some well known natural sanitaria to which place he will be accompanied by members of his family and his family physician.

RUSSIA'S CRIP.

* * * Press Describes by Tribune's Special Leased Wire. NEW YORK, March 19.—A special to the Times to-day—Washington says:

A Peking telegraphist has consented to modify the stringency of her control of Manchuria, which seems to give much satisfaction in London. An expected diplomatic visit today.

"Russia may actually abandon the convention and tear it up without in the least affecting her position except for the better. If Russia should go so far as to abandon the convention she would hate everything of importance which she can gain by it, and would be in a better position before the world. She is actually in Manchuria and exercising control of it, which she can strengthen or relax, as she sees fit."

"A convention with China does not give Russia's position the additional strength which seems to be attributed to it. On the contrary, Russia can be charged with having forced China to make a convention which other powers would not feel bound to respect. If she abandons the convention this charge cannot be made against her, and she would therefore be in a stronger position morally. At the same time she would not lose a particle of her actual control of Manchuria."

LINEMAN INJURED BY A FALLING POLE.

J. W. Stanford of 12 Cleveland street, San Francisco, a lineman in the employ of the Oakland Transit Company, was severely bruised yesterday at Forty-first and Telegraph avenue by a falling telephone pole. The pole slipped from its supports as it was being raised and fell on Stanford. No bones were broken, but he sustained severe internal injuries. He was removed to the Recording Hospital for treatment.

WORST ACT OF COUNCIL

Cuvellier Gives Dow a Present of \$500 of People's Money.

The quality of the present City Council to take care of its own is not strained, and when W. A. Dow, on April 1st, turns his office of City Attorney over to his successor, James A. Johnson, he will still be in the employ of the city.

Dow's prediction, "You can't lose us," seems to possess more truth than fiction, the collective pronoun applying to Miller and Dow.

Before Dow gives up the City Attorney's position he will have secured the assurance of at least three months' salary after it, for he will be employed to compile and classify the ordinances and city charter.

Before the City Council resumed the canvass of the votes of the recent election, Councillor Cuvellier rushed into the chamber all out of breath, and demanded all proceedings be stopped. "I have a resolution here," he said, "which I would request there would be a suspension of the rules for its immediate passage."

Morris, Schaffer and Mott desired to know what it was about and received the cheerful assurance that if they would just let Dow do it probably find out.

Cuvellier then had the Clerk read the following resolution, which under suspension of the rules and on motion of Stevens was adopted: Mr. Schaffer being the only dissenting voice:

"Whereas, in order to carry out the provisions of Section 26 of the City Charter, it is necessary to have the general ordinances of the city compiled and classified, and together with the City Charter, published in book form; and

"Whereas, the compensation for said compiling and classifying has always been \$100; and

"Whereas, it is convenient to have said charter, and the sections thereof, clearly annotated with citations of decisions bearing thereon, and

"Whereas, W. A. Dow will make salient annotations if awarded the authority to compile and classify said ordinances; it is therefore hereby

"Resolved, That, after, and beginning with April 1, 1901, W. A. Dow be and he is hereby authorized and employed to compile and classify the said ordinances of the city and to deliver a copy thereof to the City Clerk, together with an annotated copy of the city charter, the said compilation, classification and annotation to be completed on or before July 1, 1901, and be it further

"Resolved, That the compensation in full therefore shall be and is hereby fixed at the said sum of \$100 which sum is hereby appropriated from the General Fund for said purpose, and the Auditor is hereby directed to draw a warrant in favor of said W. A. Dow, his executors, administrators, or assigns, for said sum upon delivery of said work to the City Clerk and the presentation of a demand therefore and the City Treasurer is hereby directed to pay the same, and be it further

"Resolved, That this resolution shall take effect April 1, 1901."

Dow was repudiated by the people at the last election.

LEMMON'S TREE PROJECT ADVANCED BY THE COUNCIL.

The letter received by Councillor Lemmon from the Street Superintendent of Berkley, announcing that the Board of Trustees of the University town heartily endorse his project for properly decorating the streets and avenues between Berkley and Oaklnd, with suitable ornamental trees, was read at last night's meeting of the City Council.

Councillor Mott moved that the resolution be adopted, and he hoped that the incoming Board would take the matter up.

THEY PLEAD FOR MONEY FOR SCHOOLS

Council Is Asked to Provide Funds for the Board.

The City Board of Education adopted a resolution last evening to request the City Council to transfer to the High school fund immediately the sum of \$4,113.45 and the total sum of \$9,587.65 as soon as possible. The latter sum represents the estimated deficit.

It is expected that an appropriation of \$4,113.45 will run the schools until March 26, after which the new Council will be in power. No other business was transacted other than the adopting of the resolution, which is as follows:

"Oakland, March 18, 1901. To the Honorable Board of Education: Your Finance Committee submit for your consideration the following resolution for your consideration:

"Sacramento, county is directly concerned in the provisions of the act, and for that reason the measure has undergone careful scrutiny at the hands of the council. It has been discovered that with reference to Sacramento county, which comes under the designation of a county of the fifth class, as well as with reference to many other counties, the measure directly conflicts with provision of the constitution, since it proposes to increase the salaries of county officers during their term of office. The section of the constitution to which reference is made, No. 13, is as follows:

"The compensation of any county, city, town or municipal officer shall not be increased after his election or during his term of office."

"Notwithstanding this plain injunction, the new county government act contemplates wholesale changes and increases in the salaries of officials, and specifically declares that the changes shall go into effect immediately upon its passage and approval by the Governor.

"In the case of Sacramento alone, the salary of two township constables, who now receive small compensation in fees, is to be raised to \$100 a month each; the Justice of the Peace is to receive a salary instead of fees; the three official court reporters, who now get paid per item, wages are to have stated salaries of \$160.00 a month; the office of Auditor and Recorder is to be divided in two, the Auditor to receive \$3,000, and the Recorder \$2,500 per annum.

"While changes are provided for in the system of salaries in the County Clerk's office, only in the case of the offices of Auditor and Recorder is it pointed out that the changes shall not go into effect until January, 1902. In all other particular the act expressly states that the changes shall go into effect immediately upon its passage."

"In the case of Sacramento alone, the salary of two township constables, who now receive small compensation in fees, is to be raised to \$100 a month each; the Justice of the Peace is to receive a salary instead of fees; the three official court reporters, who now get paid per item, wages are to have stated salaries of \$160.00 a month; the office of Auditor and Recorder is to be divided in two, the Auditor to receive \$3,000, and the Recorder \$2,500 per annum.

"Some of the county officials claim that the act merely provides for a change in the system by which they receive their salaries, but the critics of the act assert that the effect of the bill nevertheless will be to largely increase salaries and that the constitution will not permit it to be done by indirection, in which it profits being done directly."

"GILLE H. GRAY,
"C. H. REDDING.
"W. H. B. WAKEFIELD."

The following statement of the High school fund was submitted by Superintendent McElroy:

"Salaries paid to March 14, \$2,727.73, current expenses, \$3,611.97; outstanding demands, \$2,2, total \$8,755.62."

"Estimated amount required to conduct the department for the balance of the school year: Salaries, \$20,261, water, \$100, gas and electricity, \$10, other contingencies, \$100, total, \$20,061. The grand total would thus amount to \$32,827."

"Income Received from taxes to February 1st, \$0,000, estimated receipts from taxes, \$10,000, received from tuition and breakage, \$1,000; total, \$10,750. Estimated deficit, \$10,587.66."

Director Wellington wanted to know where the money would be obtained to conduct the school after April 1.

Chairman Russ suggested that it would be time enough to cross that bridge when they came to it.

The Board adjourned to meet Friday evening.

State Superintendent of Public Instruction Thomas J. Kirk and Directors-elect Francis and D. Robertson were visitors at the meeting.

BURGLARS ARE AFTER DENTIST'S GOLD LEAF.

The office burglar has made his re-appearance. Some time during last night a burglar forced entrance into Dr. S. B. Tait's dental parlors, 1015 Washington street, by climbing through a transom and stole quite a quantity of dentists' gold leaf.

Major-elect Barstow's Expenses.

Major-elect Barstow's statement of election expenses shows \$20,50 expended.

Of this amount \$20 was contributed to the City Central Committee.

KING'S DAUGHTERS ASK DONATIONS.

The King's Daughters, who will give a rummage sale for the benefit of their home for incurables, ask for donations of east-end garments and furniture of any description. Anything at all will be acceptable. The sale will be held at 35 Broadway on March 26, 27 and 28, and clothing will be called for at any time. If those who desire to contribute clothing and household articles will call up telephone Spruce 521 or will drop a postal to the Home, corner of Eleventh and Oak streets, a wagon will be sent for their donations. This sale affords a means of being charitable in two directions at the cost of nothing but a little time and energy.

HOTEL ARRIVALS.

Associated Press Dispatches by Tribune's Special Leased Wire.

BEATRICE, Neb., Mar. 19.—A heavy fall of snow, driven by a thirty mile wind from the north, prevails here. Serious interference with railroad traffic and damage to telegraph and telephone wires will result.

WILL BENEFIT WHIAT.

ABILENE, Kans., Mar. 19.—Nearly five inches of snow fell in this part of Kansas this morning and will prove beneficial to wheat. The snow was accompanied by a high north wind and temperature but little below freezing.

PROHIBITIONISTS WILL HOLD A MEETING.

The Prohibition Central Committee met last evening at the home of Miss M. A. Thompson to complete arrangements for the coming of the national chairman, O. W. Stewart, who is making a tour of the State with the State chairman of California, Frank Sibley. Both are excellent speakers. With the orchestra and soul-stirring songs by prominent vocalists the affair promises a rare treat to Oakland people next Friday evening at Fraternal Hall on Washington street.

KNOCKS OUT SALOONS.
